

Testimonial from a parent about Somerset Total Communication.

Somerset Total Communication has made a massive difference in mine and my son Jamie's lives.

Communicating has been very difficult for Jamie and he gets really frustrated about it.

Trull School has taught me STC and, as a result, communicating with Jamie has become much easier and Jamie is less frustrated.

Jamie now communicates using STC towards me and it makes it much easier for me to understand Jamie and for Jamie to understand me.

I'm eternally grateful for STC. It has made such a difference in our lives and without it Jamie and I would still be in a really difficult position.
