Living our values – 4 Cs

At work, the way we do things matters as much as what we do.

At Somerset County Council we have four key values – the 4Cs – that all employees are expected to work to. They will form part of every member of staff's personal review.

Customer focus

This is about putting the customer at the heart of everything we do.

Collaboration

This is about working with others to deliver our services.

Can do attitude

This is about getting the job done and doing it well.

Care and respect

This is about treating others as they would wish to be treated – with care, respect, dignity and understanding.

What does this look like in practice?

The 4Cs describe our values. In practice, this means that we think from a customer or a community perspective to make sure we get things right first time and continually improve the services we provide. We must have a clear view of what our customers and service users say they need, rather than build services based on what we think they need.

We operate a 'no wrong door' policy – whichever authority or department deals with the customer's query, we help them get there. As we build links with other authorities and organisations we talk to each other and our managers about how we think we could change, even the smallest things, for the better.

We work together, establishing positive, respectful and empowering ways of working as strong teams. We act with integrity, communicating clearly, admitting to our mistakes and striving to learn from them. When we think we need to speak out or challenge, we are prepared to do so in a constructive and positive way, but we remain objective.
