JOB DESCRIPTION

way to carry out repairs to meet the letting standard and in line with regulations and health and safety regulations

Ability to undertake minor associated repairs, as required, which may include, blockwork, fencing, painting, tiling, patch plastering repairs.

Follow current rules and regulations related to roofing works, includes but not limited to; Building Regulations, British Standards for roofing, Health and Safety at Work Act 1974, Management of Health and Safety at Work Regulations 2012, Control of Asbestos Regulations 2012, Work at Height Regulations 2005, Construction and Design Management Regulations 2015 and HSE produced guidance notes on safe working in roof work.

Review relevant risk assessments and the asbestos register prior to carrying out works and complete dynamic risk assessments for tasks as required.

Understand and be able to follow building plans. Demonstrate knowledge of building regulations, safety standards, and guidelines.

Ensuring works progress as planned and there are no delays to works. This will include working around unforeseen problems and managing, unplanned additional work with required timescales.

Co-ordinating with supervisors, contractors and other trades to enable completion of works to properties within repair timescales and to the required standard.

Understanding and working to the organisational KPI's. Namely, repairs completed within timescales, repairs completed right first time, customer satisfaction and completing a personal target workload each week.

Collect local and customer intelligence to support service improvements that may present a risk to people or property. This would include raising safeguarding concerns and reporting other repairs and concerns such as damp and mould and hoarding issues.

Input and make suggestions on continuous improvement of processes and procedures for the customer and council.

You will be required to work closely with the repairs, scheduling, and compliance teams to ensure removal of asbestos to avoid any delays to works being carried out, that works are planned in sequence e.g. ordering of scaffolds and materials.

Understand when to consult with others from the wider team and contractors.

Identifies, refines, and champions new ways of working with peers.

Be an ambassador for Somerset Council, always presenting a positive image.

Deal with enquiries from members of the public in a courteous manner promoting a positive image that enhances the reputation of the Council.

JOB DESCRIPTION

Provide a first-class service to existing tenants and carry out work to a high standard, whilst managing customer expectation.

Provide advanced level advice and information to customers and colleagues in easy-to-understand terms that non-technical people will understand, assisting with customer enquiries.

Manage low level complaints and resolve where in your remit to do so, this may include contacting colleagues to raise inspections or additional repairs to be carried out.

Have the ability and skills to diffusing potential aggressive situations ensuring accurate and prompt reporting of any incidents and accidents.

Work with other team members to organise and manage workloads effectively, ensuring that all performance and customer standards are met.

Project work may involve the identification of new products and innovative solutions and implementing any new materials / solutions along with the team.

Manage complex cases relating to the trade area such as liaising with the tenancy management teams and compliance teams to ensure works are carried out whilst there is support for vulnerable tenants.

To operate powered hand tools (where appropriately qualified and trained).

Carry out basic care and maintenance of vehicles and equipment, including checking fluid levels, tyre pressures and wear, bulbs etc and to maintain vehicles and equipment in a clean and tidy manner. Report any faults on your van checklist and to the Fleet Manager.

Take reasonable care of own health and safety, following training you have received when using any tools, the employer has given you.

Co-operate with employer on health and safety, and do not interfere with, or misuse, anything provided for your health, safety or welfare.

Inform employer, supervisor or health and safety representative if you think the work or inadequate precautions are putting the organisation at serious risk.

Working with the Health and Safety team utilising the Assure safety app covering toolbox talks, risk assessments and notifiable reporting.

Identifying scaffold necessity and co-ordinating high-level works with H&S as a paramount consideration.

To accurately complete records which will be mainly electronic with some paperwork. To include use of mobile phone to view jobs, record attendance, completion of work, ordering of materials and e-mail use.
